Was very pleased with the service from Denny and the guys. Squeezed me in at the last minute and got t a custom hose made up for my trucks power steering as there was none available in Darwin. Very easy to deal with, good old fashioned service. Can highly recommend thanks again Denny.

Denny and his boys have done amazing work with my f-truck. They have rebuild the engine, new exhaust, suspension, new petrol tanks and more. I always bring my car at D&T for the last 4 years and I'm really happy with their service.

Much gratitude to Denny and the team for getting us in at late notice, for some upgrades and repairs, whilst we were up in Darwin, visiting from the East Kimberley. Sorted our 105 series Landcruiser's suspension, clutch upgrade, fitted a winch, and even accommodated us at very late notice for some unexpected repairs that we required. Very professional and accommodating customer service, I highly recommend giving these guys a call. Thanks again! Tristan and Emma.

Denny and the team put in 100% going beyond what most others would do, and advising us what needs to be done so it's done properly, but also working with us and our needs. Customer service was outstanding, definitely recommend D and T performance.

We travelled from Adelaide to Darwin and needed major engine work on our Ute. We had bad service elsewhere. Denny and his team at D&T Performance were amazing. The car has never performed better. Their service and honesty were first class. They went above and beyond to help me when I had a problem later. It is definitely the best service I have had in my life. Recommended without reservation. Denny and Ben have exceeded my expectations yet again. I have been taking my 350z to D & T Performance for many years now. Their customer service and knowledge is second to none. Their care of my car and the repairs carried out, have always been exceptional My 350z is my baby and will trust no one else with her repairs and performance work. The most helpful and honest mechanics I have ever had dealings with. I highly recommend them to you. Thanks guys once again.

I took my underpowered Nissan Patrol 4.2TD into D&T Performance and they had sorted the problem I had in minutes, we ended up doing a Turbo and Intercooler upgrade as per Denny's expert advise and the results were fantastic, the service, expertise and enthusiasm of the mechanics is second to none, these guys love there work, so if you want the best workmanship with the best results I highly recommend these guys.

Couldn't have been more helpful. Interstate travellers we suddenly got an engine warning light. Phoned them first thing in morning and they had problems resolved by 9:30am. Brilliant. Honest. Highly recommended. Couldn't say same for dealer who wouldn't help!

Could not praise these guys up enough! Denny went above and beyond to help me out. He kept me up to date on everything about my vehicle. Very friendly, always smiling, prices are excellent. This will be the only mechanic I ever take my car to ever again. Keep up the great work. Much respect Denny. Cheers

Was just on to D&T as family members and friends have used them in the past. D&T Came out far the best priced for a general service. The mechanic who booked in the service was Ben, he was very knowledgeable and well spoken over the phone which overall convinced me to trust these guys with my 4WD.

After dropping my vehicle off in the morning, I requested Ben to service the vehicle himself, because he made mention of doing training with the Toyota Manufacturer during his apprenticeship. About two hours later, he called to say he had noticed that the water pump required replacement. I agreed to go ahead. (I also did my own check at the same time to see how much the part cost, to my surprise there wasn't a mark up, big plus)

Got my car back, washed, serviced all ready for the long weekend. Cheers Ben, big asset to the team there!

The guys at D&T Performance seriously are the best in business & know how to work there magic in out of an engine bay good service great turn around time friendly advice and good value.

Just had all 4 diesel injectors replaced on my Toyota Hilux wrapping it up with a service & dyno tune all within a 2 day turnaround time cannot be happier with the service provided thanks again guys the cars never ran so good :)

Have been using these guys for over the last year and they have looked after my pride and joy extremely well.

Denny is highly trustworthy and is always straight up with me and goes above and beyond to help, no matter the mechanical situation. Good communication, always let's me know what is going on. Got some exhaust tips put on late last year, ended up with Denny working on them for an extra several hours to get them fitted perfect and he honored the quoted price. Whether mechanical issues or just mods, I highly recommend these guys.

I recently had my Nissan Patrol car in to see these guy's as I had some major issues' What I can say about their work is beyond words. Highly recommend them, for their customer service, their expertise of workmanship, their ongoing contact & upkeep of what was going on & what needed to be done with my vehicle. Prices are the best you'd get anywhere. Friendly, outgoing, latest technology. NO job is too hard for them to accomplish. I could not think of any other mechanical place that even comes close to this business. So please if you value your possession and want the best price, friendly, professional top quality work @ lower prices than any other don't hesitate nor look any further. They are the best, Thank You so much for a top quality friendly service and at a great price you are the best and I will definitely spread the word. Kind Regards, Dave & Stik's

The fellas and D&T are absolute creatures on the tools (in the nicest way possible). they all share the passion for the trade and have a deep insight into tuning. I needed a complete redo on a JDM 1990 Toyota Celsior and whilst I know it isn't a easy job, these guys dealt with it professionally and efficiently and will in turn, provide me a service that I'll never forget. I couldn't recommend these guys enough if you need help anything V8 related as the have continuously provided me with great service, advice, and insight into the V8 world. I wish the the team at D&T all the best and I hope to deal with you more in the future.
